

Appledore Parish Council Highways Strategy 1st January to 31st December 2022

The Parish Council will continue to address, with the aim to resolve, both longstanding and new issues as they arise by regular contact with Kent Highways and other relevant bodies.

in addition it will work with Kent Highways to establish permissible road safety improvements and their likely costs.

Based on the outcome of discussions with residents and other parties the Parish Council will explore possibilities for joint or total funding of the improvements which are judged to have the maximum value to Appledore in order of priority.
